HEFEWEIZEN

A hefeweizen brewed in collaboration with our friends at 67 Kapitali, a specialist beer bar in Valletta. A cloudy, golden-coloured brew modelled after the classic Bavarian wheat beers, this hefeweizen is a full-bodied and creamy treat. It is brewed with a high ratio of malted wheat which gives this beer its creamy fullness, and a unique yeast that contributes a wonderful banana and clove aroma. Its refreshing qualities are due to a touch of bitterness from the hops, and the relatively low ABV makes this beer perfect to drink at any time; even with breakfast!

INGREDIENTS: **Water, malted barley, malted wheat, hops, yeast.**

FOOD PAIRINGS: **Roast pork, fried chicken or veal, Caesar salad, hot smoked salmon, apple tarts.**
